

Winkel

Winkelarten:

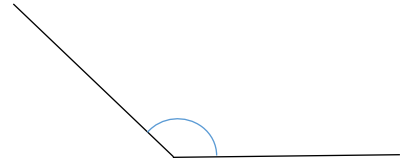

Spitzer Winkel ($\alpha < 90^\circ$):

rechter Winkel ($\alpha = 90^\circ$):

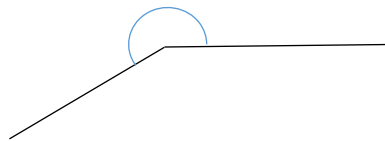

Stumpfer Winkel ($90^\circ < \alpha < 180^\circ$):

Gestreckter Winkel ($\alpha = 180^\circ$):

erhabener Winkel ($180^\circ < \alpha < 360^\circ$):

voller Winkel ($\alpha = 360^\circ$):

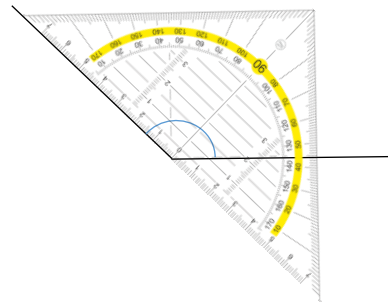

Winkel messen:

Methode 1:

Methode 2:

Winkel zeichnen:

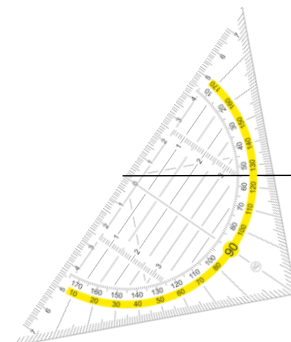

1. Schritt:

ersten Schenkel zeichnen

2. Schritt:

Geodreieck entsprechend der Gradvorgabe anlegen.

3. Schritt:

zweiten Schenkel zeichnen
